Re: Hiring Services

Dear Brian,

Please accept this letter of appreciation for the services you and your staff provided BC Ringette for the successful selection of our new Technical Coordinator.

The level of service and attention to detail were very good but it was the expert knowledge that really exceeded expectations. As a result of your extensive experience in the hiring of key staff, the guidance you provided was invaluable. The national exposure created by Cosmos also resulted in far more candidates than we normally would generate on our own and more importantly, a higher number of well qualified candidates. This made our final selection much easier and your already competitive rates even more of a bargain.

Hiring staff is an investment in an organization's future. Our choice of Cosmos Sports to find the right person has proven to be no less a wise investment.

Sincerely,

Wayne Leslie  
Executive Director
